

Assaulter 2-Port System

System integration within a row of MOLLE

BDATech's Assaulter 2-Port System is small enough to fit in one row of MOLLE and powerful enough to handle the most austere combat missions. Fully compatible with the APEx 4-Port System's cables the Assaulter System gives the soldier additional flexibility by providing them with a scalable solution. The Assaulter 2-Port System can be used in a wide range of missions, from providing soldiers with situational awareness to flying small drones.

POWER + DATA

Allows for Power + Data connections of multiple peripheral Devices. Power + Data can be controlled by a Windows or Android End User Device such as a laptop or smart phone over a single USB 3.0 interface.

Peripheral Devices Include: Radios // Video downlink devices // LASER range finders // USB peripherals // GPS

TECH SPECS

- Length: 19.35 inch // 49 cm
- Weight: 4 oz // 113 g

MULTI-MISSION FLEXIBILITY

- Dismounted Situational Awareness
- Mobile C4ISR
- Joint Fires
- Remotely piloted vehicle control
- Integrated comms platform

ONE SYSTEM, MANY MISSIONS
